REGULATIONS FOR USING THE Leica DMI 6000 B INVERTED MICROSCOPE

1. Previous request by e-mail to microscopia@eez.csic.es attaching the corresponding request form (available at the web page).
2. Wait until receiving a confirmation message from the service.
3. Use of the equipment: the user must have followed the corresponding theoretical course. The user will be accompanied/supervised by the person in charge of the group until he/she receives the suitable formation. In case of doubts or problems, the user will report immediately to the person in charge of the group or to the service staff.
4. Toxic/polluting samples will not be used in the equipment.
5. After using the equipment:
 - a. Clean the optical and mechanical elements. Clean the IMMERSION OIL.
 - b. Remove sample remains from both equipments and facilities.
 - c. Turn off and cover the equipment.
 - d. Copy the files. Turn off the computer and the screen.
 - e. Annotate the hours of use in the record book, hours of fluorescence use and filters and objectives used. Annotate any possible incidences.

NOTES:

TEL.: 958 18 16 00
Ext. 185 (administración y lab. preparación de muestras)
Ext. 130 (microtomos)
Ext. 131 (MET)
Ext. 335 (CLSM)
FAX: 958 12 96 00
e-mail: microscopia@eez.csic.es
web: www.eez.csic.es

Servicio de Microscopia Confocal y
Electrónica de Transmisión
Estación Experimental del Zaidín
CSIC
C/Profesor Albareda 1,
18008 GRANADA ESPAÑA

Científico responsable:
Dr. Juan de Dios Alché Ramirez (Ext. 215)

MINISTERIO
DE CIENCIA
E INNOVACIÓN

- Schedule of use for the inverted microscope: 9:00 to 14:00 Mondays to Fridays.
- The image files will remain in the capture folder of the equipment for up to 3 months. Any other files will be eliminated immediately.
